

There is nothing more important than is finding the light. No selfish goal ever leads to happiness. Unless its a purposefully designed plan Formed By the Creator Himself. Only our Great Mother will protect us Against His devious scheme. She fights for us She stands By our side When the evil tidal waves strike our cities We are well prepared. His Light equals darkness what comes to survival of mankind. Therefore, we pray to thee Great Hecate To liberate us from our bonds to our previous lives. We pray for thy protection and please share your wisdom with us. For we need thy help and thy teachings to cast out our enemies.
